

Minibridge in the Classroom

Funded Start-Up Summary

- Minibridge is a team card game that “levels the classroom playing field” providing a differentiated activity for the whole class
- Sessions are great fun and intensely practical. Most of the time is spent learning to play Minibridge while “discovering” its educational potential
- The ideal introductory session is split into morning and afternoon
- The morning introduces the rules of the game to staff and pupils
- The afternoon session allows for free practice to embed the rules, practise the maths and show staff how to use the downloadable materials and software

Maths

- Patterns and sequences
- Probability and certainty
- Working with unknown numbers (basic algebra)
- Adding/subtracting, single & two figure numbers

Thinking Skills

- Working memory
- Handle key data
- Problem solving
- Focus and concentration
- Apply strategic reasoning
- Deductive and inferential logic

English Language and Communication

- Justify actions
- Ask relevant questions
- Challenge others appropriately
- Contribute effectively to group discussion
- Listen and respond appropriately to others
- Explain a problem or a solution to a problem
